

Risk Management System

Request for Proposal Questions & Answers

February 2025

Orange County Employees Retirement System (OCERS)
P.O. Box 1229
Santa Ana, CA 927021-(714)-558-6200
<http://www.ocers.org>

Question 1:

Are there more recent financials, metrics, or inputs we should consider other than what is available in the Annual Comprehensive Financial Report for the fiscal year ended December 31, 2023, and the unaudited financial activity for the nine months ended September 30, 2024?

Answer:

No.

Question 2:

We had previously executed an NDA for similar scope, which has since expired. Would OCERS be willing to reinstate that previous agreement for the purposes of this RFP?

Answer:

Please respond to this RFP without consideration of the NDA at this point. If your firm is selected to advance to the next stage, we may consider NDA at that point. However, note that if the responses to the questions in the RFP are not well substantiated, OCERS may not be able to review the RFP response fully.

Question 3:

Please provide unique security count by type and number of managers and portfolios.

Answer:

OCERS' public markets consist of 11 separately managed accounts and 20 commingled funds, while the private markets consist of commingled vehicles.

Please download [Quarterly Review](#) report for details.

Question 4:

Is OCERS receptive to an initial term of less than three years?

Answer:

No, the initial term will be for a three (3) year period.

Question 5:

What portion of funds are SMA's/Commingled?

Answer:

The public markets consist of 11 separately managed accounts and 20 commingled funds, while the private markets consist of commingled vehicles.

Please download [Quarterly Review](#) report for details.

Question 6:

What level of private fund data does OCERS receive?

Answer:

OCERS utilizes private fund data provided through consultants and GPs, including exposure data and underlying holdings.

Question 7:

Does the private fund data received include underlying holdings and what depth and frequency is this provided?

Answer:

Yes, the fund data has underlying holdings such as portfolio companies, property lists, and loan details. It also provides information on investment types, regions, countries, sectors, industries, financial ratios, with data available on a combination of quarterly or semi-annual frequency.

Question 8:

Does OCERS employ a third-party provider on the collection of private company data?

Answer:

OCERS utilizes private company data provided through consultants and GPs.

Question 9:

Can OCERS provide a list of benchmarks used?

Answer:

Please download [Quarterly Review](#) report for details.

Question 10:

How many portfolios would need to be sourced from managers outside of the custodian?

Answer:

OCERS' public markets consist of 11 separately managed accounts and 20 commingled funds, while the private markets consist of commingled vehicles. Holdings of separately managed accounts can be sourced from the custodian, while constituent data for commingled investments is obtained from consultants, GPs, and other data providers.

Please download [Quarterly Review](#) report for details.

Question 11:

Does the custodian have holdings data for all public equity, fixed income and hedge fund managers?

Answer:

OCERS' public markets consist of 11 separately managed accounts and 20 commingled funds. Custodian has holdings data for OCERS' separately managed accounts and does not have holdings for OCERS' investments in commingled funds.

Please download [Quarterly Review](#) report for details.

Question 12:

In what system(s)/platform(s) are private market values and transactions being stored?

Answer:

State Street, as the custodian, serves as OCERS' book of record, storing our portfolio's market values and transactions.

Question 13:

Is OCERS collecting and entering private market valuations and transactions yourself or do you outsource to another provider (i.e. State Street)?

Answer:

State Street, as the custodian, serves as OCERS' book of record, storing our portfolio's market values and transactions.

Question 14:

How many private funds would require deal level transparency data? How is this information stored and collected today?

Answer:

Private Equity, Real Assets, Private Income Strategies, and Private Estate require holdings level transparency data. OCERS utilizes private fund data provided through consultants and GPs, including exposure data and underlying holdings.

Please download [Quarterly Review](#) report for details.

Question 15:

What is your private allocation breakdown across fund, co-investments and direct? Are you planning on keeping the balance consistent or increase allocations anywhere?

Answer:

Please download [Quarterly Review](#) report for details. We will increase allocations where permitted by the IPS and as opportunities arise.

Question 16:

What are your current desires/use-cases for private capital analytics? What aspects or qualities of the process you would like to see improved?

Answer:

We seek an in-depth analysis of our private capital portfolios and investments, with capabilities for benchmarking and viewing funds by vintage, asset class, region, and other metrics. Data transparency, coverage, and quality are crucial.

Question 17:

Could you provide the number of unique securities by asset type? (corporate bonds, government bonds, municipals, derivatives, structured bonds excl. ABS, bank loans, ABS, modeled securities i.e. private placements, CMBS, etc.)

Answer:

Please download [Quarterly Review](#) report for details.

Question 18:

Could you expand on the reporting requirements? Do you require standardized or custom-built templates?

Answer:

We require reporting that includes, but is not limited to, risk and exposure reports, as well as portfolio reporting at the total fund, asset class, manager, security, and user-defined grouping levels. Both standardized and custom-built templates are preferred. Additionally, the system must support the creation and execution of reports necessary for ad hoc analysis.

Question 19:

Related to question 28 – what type of data would you be looking to integrate into State Street or Backstop?

Answer:

We are looking to integrate standard investment-related data into both State Street and Backstop, including performance, risk metrics, ranking, compliance data, UDFs in the type of Boolean, float, string, datetime, etc. Our needs are aligned with typical industry standards, and we are not seeking highly customized or unstructured data. However, the system must support flexible data formatting to ensure seamless integration with our reporting and risk management workflows.

Beyond integration, speed and scalability are critical factors. The system should be able to handle high-frequency API calls efficiently and process large data volumes with minimal latency. It should also maintain high availability and performance under peak with minimal degradation in responsiveness.

Question 20:

Please discuss OCERS' plans for growth and increased sophistication. Are there new asset classes, internal teams, third party systems, or other future needs on the horizon? What are you looking for from a risk provider that meets the needs for long-term partnership?

Answer:

As investment opportunities arise over time, we prefer to partner with organizations that have the capability to adapt and evolve. A preferred risk system provider should offer advanced analytics, intuitive tools, robust reporting, and valuable research and insights.

Question 21:

Where do you find your current capabilities for risk and other portfolio reporting to be lacking?

Answer:

Data reconciliation, benchmarking capability, report customizability, and user-defined risk model adaptability.

Question 22:

Is there a preferred method for risk modeling? For example, parametric or monte carlo? How does OCERS approach tail risk analysis?

Answer:

We utilize a variety of tools for tail risk analysis and do not rely on a single preferred method for risk modeling. Risk models are implemented and continuously monitored within the context of specific investment objectives and prevailing market conditions.

Question 23:

How does OCERS approach holdings-based and returns-based risk modeling across asset classes? For example, private markets and hedge funds. Are there strong preferences?

Answer:

Integration of manager holdings and returns across all asset classes are required. The asset types include equities, fixed income, private equity, hedge funds, real assets and real estate. The ideal solution would provide the ability to integrate position details across all managers and returns across all managers and asset classes.

Question 24:

Please describe how OCERS handles Strategic Asset Allocation and Total Portfolio Approach. What are the key aspects of each that the ideal risk provider would be compatible with?

Answer:

We continuously monitor and evaluate the market environment and investment theories. We assess and adopt approaches that align with our investment objectives and comply with the IPS. The risk system provider should offer robust, time-tested models and advanced analytical capabilities while also having the flexibility to evolve over time as new investment themes emerge. We are looking to understand factor exposures across individual portfolios and across the total fund.

Question 25:

Please provide a few examples of forecasting analysis that are relevant for OCERS.

Answer:

Fundamental analysis, market trends, portfolio optimization, sensitivity analysis, stress testing, what-if analysis.

Question 26:

Which derivatives are in scope for OCERS?

Answer:

The use of derivatives is flexible and not subject to strict limitations. Therefore, the coverage will include the full range of derivatives, including but not limited to options, forwards, futures, swaps, and other non-linear payoff instruments.

Question 27:

Please provide examples of risk models and calculation engines that would be in scope for external source integration.

Answer:

Performance attribution (both Brinson-style and factor-based), risk decomposition, multi-factor risk attribution, back testing, rules-based inclusion and exclusion of portfolios.

Question 28:

Please expand on the requirements for counterparty risk, leverage and liquidity analysis.

Answer:

Please provide your response in general terms or within the context of industry standards. Additionally, you may include best practices, methodologies, or frameworks commonly used.

Question 29:

Are there any shortcomings or gaps in OCERS performance attribution process today?

Answer:

No.

Question 30:

Which benchmarks does OCERS leverage today? Is constituent level data required?

Answer:

Please download [Quarterly Review](#) report for details. Yes, constituent level data is preferred.

Question 31:

Which systems would be downstream consumers of the risk analytics (i.e. data warehouse, Snowflake, PowerBI, etc.)?

Answer:

Business intelligence tools such as Power BI and Tableau, data warehouse, data lake, data lakehouse.

Question 32:

What is OCERS portfolio construction and asset allocation process? How does OCERS optimize risk/return when determining asset class allocations? How does OCERS budget for private markets allocation to meet investment guidelines?

Answer:

We collaborate with consultants on asset allocation and portfolio construction. Private market strategy allocation and pacing plans are developed and supported through projection and pacing models.

Question 33:

Does OCERS have private credit exposure? If yes, what challenges are there?

Answer:

Yes, we have private credit exposure. Challenges faced include the following:

- Tracking information at the security/loan level (instead of fund level) and aggregating this information to show attributes such as sectors, instrument types, spreads and fees, and geographic exposure;
- Attribution of returns: income, price appreciation, fees, and other return drivers;
- Performance measurement;
- Tracking distributions and capital calls.

Question 34:

For External Funds, will OCERS be providing constituents?

Answer:

OCERS utilizes external funds' constituent data provided through consultants, custodian, investment managers, and other data providers. The risk system provider will coordinate with these sources to obtain the necessary constituent data.

Question 35:

Is the risk analysis both ex-ante and ex-post, or only ex-post?

Answer:

We are open to both ex-ante and ex-post, or only ex-post risk analysis, as long as the approach aligns with industry standards and provides meaningful insights. Our priority is to ensure that the chosen methodology effectively supports risk assessment and decision-making.

Question 36:

The Risk System RFP states: "*Capability to model and generate reports for investments in illiquid and private markets;*"

What types of metrics do you currently use and/or aim to use for these reports?

Answer:

Standard risk metrics, as well as risk measurement in specific asset classes, aggregation of results by sector, industry, country, region, duration, and more, for asset classes and entire portfolio.

Question 37:

We have a multi-asset class platform for analyzing risk and performance across both public and private markets, including API-first enterprise data management, IBOR, ABOR, compliance, and more, which can all be provided on a modular or holistic basis. We receive risk factors from third parties, which are fully integrated into our platform. Does this suffice for the minimum qualifications, or must the risk factors be proprietary?

Answer:

The risk system provider must offer a multi-asset class, factor-based risk model suitable for analyzing the risk and performance of a broad institutional portfolio invested globally across both public and private (liquid and illiquid) markets. The risk models can be either developed in-house or sourced from third parties, depending on the provider's approach.

Question 38:

The Risk System RFP states in Exhibit C: Minimum Qualification Certification

Question 2. Must have experience providing a comprehensive multi-asset class investment risk analysis system to institutional investors such as pension funds, endowments, or other large asset managers. The Proposing Firm must have at least five (5) such clients each overseeing assets in excess of \$20 billion.

Per the previous question, we ingest risk factors from third-party providers, integrating them into our solution. The third-party providers we partner with meet this requirement. Does this suffice for the minimum qualifications?

Answer:

Please refer to Exhibit C: Minimum Qualification Certification.

Question 39:

The Risk System RFP states in Exhibit C: Minimum Qualification Certification

Question 3. Must identify and quantify risk to the following factors: a. Index factors b. Equity style factors c. Interest rates d. Credit spreads e. Inflation factors f. Foreign exchange:

The risk factor models we utilize will typically always include these factors. Does this suffice for the minimum qualifications?

Answer:

Please refer to Exhibit C: Minimum Qualification Certification.

Quarterly Review

Orange County Employees Retirement System

Third Quarter of 2024

Quarterly Review

Executive Summary

Executive Summary

- As of September 2024, the market value of the OCERS portfolio was \$24.5 billion, up from \$23.6 billion at the end of the second quarter. For the third quarter of 2024, the OCERS portfolio posted a return of 4.1% compared to the Policy Index return of 4.3% over the same period.
- Over the trailing one-year period, the OCERS portfolio returned 17.7%, compared to 17.1% for the Policy Index. The portfolio posted an annualized return of 9.0% and 7.6% per year over the past five and ten years, respectively.
- The portfolio's risk/volatility, as indicated by standard deviation, was below the policy benchmark and peer group average for the trailing one-year period, at 6.1% versus 6.3% and 6.7%, respectively. The long-term risk-adjusted return of the OCERS portfolio, as indicated by the Sharpe Ratio over the past three-, five- and ten-year periods, ranked in top 13% of the peer group.

What has and has not worked well recently?

- The OCERS portfolio's largest asset class, Global Public Equity, meaningfully appreciated over the trailing twelve months, returning 31.5%, outpacing the benchmark by 50 basis points, and ranking in the top 33% of the peer group. Within Global Public Equity, Emerging Markets Equity experienced the highest relative return over the one-year period, as the asset class outpaced the MSCI Emerging Markets Index by 200 basis points. Acadian's Emerging Markets Equity and Emerging Markets Small Cap Equity strategies were the primary contributors to the asset class results, outpacing their benchmarks by 5.5% and 5.6%, respectively.
- Over the one-year period, Private Equity returned 5.9%, lagging the Cambridge Associates Private Equity Index return of 7.4%. Given its relative size within the OCERS portfolio (15.7%), Private Equity was the largest detractor from the one-year results. It is worth noting that private market performance versus benchmarks is often influenced by valuation timing differences, particularly when evaluated on a time-weighted basis.

Executive Summary (continued)

What has and has not worked well recently? (continued)

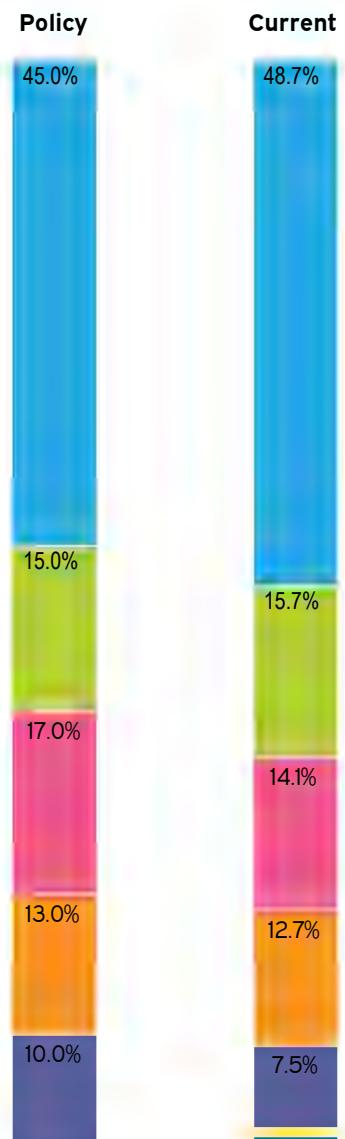

→ Strong manager selection resulted in the Real Assets asset class posting positive absolute and relative results, outpacing the benchmark by 420 basis points over the trailing twelve months. Within Real Assets, Energy posted the highest relative return over the one-year period, outpacing the Cambridge Associates PE Energy (1Qtr Lagged) Index by 12.2%. Kayne Anderson Private Energy Income II, and Encap Energy Capital XII were the primary contributors to the asset class, outpacing the benchmark by 54.6% and 48.4%, respectively.

The most recent asset allocation policy was approved at the April 2023 Investment Committee meeting and the transition took place in July 2023. The Committee will continue, with the assistance of the OCERS Investments Team and Meketa Investment Group, to review asset classes, optimize and re-underwrite the manager roster, and rebalance the portfolio to achieve the target asset allocation methodically and with prudence.

THIS REPORT (THE "REPORT") HAS BEEN PREPARED FOR THE SOLE BENEFIT OF THE INTENDED RECIPIENT (THE "RECIPIENT").

SIGNIFICANT EVENTS MAY OCCUR (OR HAVE OCCURRED) AFTER THE DATE OF THIS REPORT, AND IT IS NOT OUR FUNCTION OR RESPONSIBILITY TO UPDATE THIS REPORT. THE INFORMATION CONTAINED HEREIN, INCLUDING ANY OPINIONS OR RECOMMENDATIONS, REPRESENTS OUR GOOD FAITH VIEWS AS OF THE DATE OF THIS REPORT AND IS SUBJECT TO CHANGE AT ANY TIME. ALL INVESTMENTS INVOLVE RISK, AND THERE CAN BE NO GUARANTEE THAT THE STRATEGIES, TACTICS, AND METHODS DISCUSSED HERE WILL BE SUCCESSFUL.

THE INFORMATION USED TO PREPARE THIS REPORT MAY HAVE BEEN OBTAINED FROM INVESTMENT MANAGERS, CUSTODIANS, AND OTHER EXTERNAL SOURCES. SOME OF THIS REPORT MAY HAVE BEEN PRODUCED WITH THE ASSISTANCE OF ARTIFICIAL INTELLIGENCE ("AI") TECHNOLOGY. WHILE WE HAVE EXERCISED REASONABLE CARE IN PREPARING THIS REPORT, WE CANNOT GUARANTEE THE ACCURACY, ADEQUACY, VALIDITY, RELIABILITY, AVAILABILITY, OR COMPLETENESS OF ANY INFORMATION CONTAINED HEREIN, WHETHER OBTAINED EXTERNALLY OR PRODUCED BY THE AI.

THE RECIPIENT SHOULD BE AWARE THAT THIS REPORT MAY INCLUDE AI-GENERATED CONTENT THAT MAY NOT HAVE CONSIDERED ALL RISK FACTORS. THE RECIPIENT IS ADVISED TO CONSULT WITH THEIR MEKETA ADVISOR OR ANOTHER PROFESSIONAL ADVISOR BEFORE MAKING ANY FINANCIAL DECISIONS OR TAKING ANY ACTION BASED ON THE CONTENT OF THIS REPORT. WE BELIEVE THE INFORMATION TO BE FACTUAL AND UP TO DATE BUT DO NOT ASSUME ANY RESPONSIBILITY FOR ERRORS OR OMISSIONS IN THE CONTENT PRODUCED. UNDER NO CIRCUMSTANCES SHALL WE BE LIABLE FOR ANY SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL, OR INCIDENTAL DAMAGES OR ANY DAMAGES WHATSOEVER, WHETHER IN AN ACTION OF CONTRACT, NEGLIGENCE, OR OTHER TORT, ARISING OUT OF OR IN CONNECTION WITH THE USE OF THIS CONTENT. IT IS IMPORTANT FOR THE RECIPIENT TO CRITICALLY EVALUATE THE INFORMATION PROVIDED.

CERTAIN INFORMATION CONTAINED IN THIS REPORT MAY CONSTITUTE "FORWARD-LOOKING STATEMENTS," WHICH CAN BE IDENTIFIED BY THE USE OF TERMINOLOGY SUCH AS "MAY," "WILL," "SHOULD," "EXPECT," "AIM," "ANTICIPATE," "TARGET," "PROJECT," "ESTIMATE," "INTEND," "CONTINUE," OR "BELIEVE," OR THE NEGATIVES THEREOF OR OTHER VARIATIONS THEREON OR COMPARABLE TERMINOLOGY. ANY FORWARD-LOOKING STATEMENTS, FORECASTS, PROJECTIONS, VALUATIONS, OR RESULTS IN THIS REPORT ARE BASED UPON CURRENT ASSUMPTIONS. CHANGES TO ANY ASSUMPTIONS MAY HAVE A MATERIAL IMPACT ON FORWARD-LOOKING STATEMENTS, FORECASTS, PROJECTIONS, VALUATIONS, OR RESULTS. ACTUAL RESULTS MAY THEREFORE BE MATERIALLY DIFFERENT FROM ANY FORECASTS, PROJECTIONS, VALUATIONS, OR RESULTS IN THIS REPORT.

PERFORMANCE DATA CONTAINED HEREIN REPRESENT PAST PERFORMANCE. PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS.
